HEREDITAS

GENETISKT ARKIV

UTGIVET AV MENDELSKA SÄLLSKAPET I LUND
ORGAN FÖR NORDISK GENETIKERFÖRENING

REDAKTÖR: ARNE MÜNTZING

BAND 59 1968

BERLINGSKA BOKTRYCKERIET LUND

UTGIVNINGSDAGAR 1968

1:a häft., pag. 1—187, den 29 februari

2:a—3:e » » 189—524, » 27 mars

INNEHÅLL

BLIXT, STIG, Studies of induced mutations in peas XXIV. Genetically conditioned differences in radiation sensitivity 2 303

DOLL. HANS, Segregation frequencies of induced chlorophyll mutants in barley 464

EKBERG, INGER, ERIKSSON, GÖSTA and ŠULÍKOVÁ, ZUSANA, Meiosis and pollen formation in *Larix* 427

GELIN, O., Studies of induced mutations in peas XXIII. The influence of treatment conditions on the effects of ethylmethanesulfonate seed-treatment .. 263

GICHNER, I., EHRENBERG, L. and WACHTMEISTER, C. A., The mutagenic activity of β-hyroxyethyl methanesulfonate, β-methoxyethyl methanesulfonate and diethyl 1,3-propanedisulfonate 253

GYLDENHOLM, A. O., Macromolecular physiology of plastids V. On the nucleic acid metabolism during chloroplast development 142

HAGBERG, A. and PERSSON, G., Induced mutations in barley breeding 396

KATO, REI, The chromosomes of forty-two primary sarcomas of the Chinese hamster 63

— Chromosome breakage induced by a carcinogenic hydrocarbon in Chinese hamster cells and human leukocytes in vitro 120

KIHLMAN, B. A. and HARTLEY, BERYL, Effect of hydroxyurea and other inhibitors of DNA synthesis on *Vicia* chromosomes previously exposed to X-rays or to radiomimetic chemicals 439

LUNDQVIST, ARNE, The mode of origin of self-fertility in grasses 413

LUNDQVIST, U., VON WETTSTEIN-KNOWLES, P. and VON WETTSTEIN, D., Induction of *eceriferum* mutants in barley by ionizing radiations and chemical mutagens. II 473

LÜNING, K. G. and SHERIDAN, WILLIAM, Dominant effects of recessive lethals in mice 289

MACKEY, JAMES, Mutagenesis in *vulgare* wheat 505

MATÉRN, BERTIL and SIMAK, MILAN, Statistical problems in karyotype analysis 280

MIKAELSEN, K., AHNSTRÖM, G. and LI, W. C., Genetic effects of alkylating agents in barley. Influence of post-storage, metabolic state and pH of mutagen solution 353

MÜNTZING, ARNE, A case of differential fertilization in inbred rye 298

NATARAJAN, A. T. and AHNSTRÖM, G., Cytogenetical effects of inorganic pyrophosphate and 5-fluoro deoxyuridine 229

NYGREN, AXEL, EDLUND, PER, HIRSCH, ULF and ÅHSGREN, LARS, Cytological studies in perch (*Perca fluviatilis* L.), pike (*Esox lucius* L.), pike-perch (*Lucioperca lucioperca* L.), and ruff (*Acerina cernua* L.) 518

OHNO, SUSUMU, WOLF, ULRICH and ATKIN, NIELS B., Evolution from fish to mammals by gene duplication 169

OLDÉN, E. J. and NYBOM, N., On the origin of *Prunus cerasus* L. 327

RAMEL, CLAES, The effect of the curly inversions on meiosis in *Drosophila melanogaster* I. Intrachromosomal effects on recombination 189

REITALU, JUHAN, Chromosome studies in connection with sex chromosomal deviations in man 1

SIGURBJÖRNSSON, BJÖRN, Induced mutations as a tool for improving world food sources and international cooperation in their use 375

SJÖDIN, JAN and HAGBERG, ARNE, A survey of translocation studies in *Vicia faba* L. 242

STRÖMNAES, ÖISTEIN, Genetic changes in *Saccharomyces cerevisiae* grown on media containing DL-para-fluoro-phenylalanine 197

UMAERUS, MAGNHILD and ÅKERBERG, ERIK, Preliminary studies on spontaneous chimaera formation in *Poa pratensis* 221

WALLES, BJÖRN, Biochemical mutants affected in chloroplast morphogenesis .. 346

YTTERBORN, KARL H., Salivary gland analysis and localization of second chromosome recessive lethals obtained after irradiation of spermatogonia and spermatozoa in *Drosophila melanogaster* 49

1:a—2:a häft., pag. 1—272, den 20 september
3:e » » 273—416, » 18 december

INNEHÅLL

AASTVEIT KNUT, Variation and selection for seed set in tetraploid rye 294

AXELSON, MARIANNE, Sex chromatin in early pig embryos 347

BROWN-THOMSEN, J., Variability in *Candida albicans* (ROBIN) BERKHOUT. I. Studies on morphology and biochemical activity 355

FREDGA, KARL, Identification by autoradiography of the chromosomes involved in a familial 15/18 translocation 129

— Chromosomes of the Masked Shrew (*Sorex caecutiens* Laxm.) 269

FRÖST, SUNE and ISING, GUNNAR, An investigation into the phenolic compounds in *Vaccinium myrtillus* L. (Bilberries), *Vaccinium vitis idaea* L. (Cowberries), and the hybrid between them *V. intermedium* Ruthe employing thin layer chromatography 72

GLEDHILL, BARTON L., GLEDHILL, MARIANNE P. and HENRICSON, BENGT, An attempt to measure a chromatin distributive imbalance in spermatozoa .. 407

GUSTAVSON, K.-H. and VERNEHOLT, J., The XYY syndrome in a prepubertal boy 264

GUSTAVSSON, INGEMAR and SUNDT, CARL OLOV, Karyotypes in five species of deer (*Alces alces* L., *Capreolus capreolus* L., *Cervus elaphus* L., *Cervus nippon nippon* Temm. and *Dama dama* L.) 233

HALKKA, O., HALKKA, L., RAATIKAINEN, M. and VASARAINEN, A., Transmission of genes for colour polymorphism in *Philaenus* 262

HALL, OVE, The qualitative variation in acid phosphatase in the subgenus tetrahit of the genus *Galeopsis* 149

HOLM, EILIF, Exogenous GA_3 increases seed-set in barley crosses 409

KIHLMAN, B. A., "Sub-chromatid" exchanges in *Vicia sativa* 412

LIMA-DE-FARIA, A., GERMAN, J., GHATNEKAR, M., MCGOVERN, J. and ANDERSON, L., In vitro labelling of human meiotic chromosomes with H^3-thymidine .. 249

MIKAELSEN, K. and PEDERSEN, K., Protective effectiveness of cysteine, cysteamine and cystamine against X-ray induced chromosome aberrations at different stages of mitosis 399

MOUTSCHEN-DAHMEN, J. and M., and EHRENBERG, L., Note on the chromosome breaking activity of ethylene oxide and ethyleneimine 267

MØLLER, DAG, Genetic diversity in spawning cod along the Norwegian coast .. 1

DE NETTANCOURT, DREUX and ERIKSSON, GÖSTA, Effects of irradiation upon starch formation and starch hydrolysis in tomato microspores 167
OFTEDAL, PER, A theoretical study of mutant yield and cell killing after treatment of heterogeneous cell populations 177
RAMEL, CLAES, The effect of the curly inversions on meiosis in *Drosophila melanogaster*. II. Interchromosomal effects on males, carrying heterochromatin deficient X chromosome 211
ROUSI, ARNE, Cytoplasmic inheritance in *Aquilegia vulgaris* 223
RUNQUIST, ERIK W., Meiotic investigations in *Pinus silvestris* (L) 77
SANDBERG, KAJ, Genetic polymorphism in carbonic anhydrase from horse erythrocytes 411
SORSA, VEIKKO and WIDÉN, CARL-JOHAN, The *Dryopteris spinulosa* complex in Finland. A cytological and chromatographic study of some hybrids 273
WEIMARCK, ANNA, Self-incompatibility in the *Gramineae* 157
VON WETTSTEIN-KNOWLES, PENNY, Mutations affecting anthocyanin synthesis in the tomato. I. Genetics, histology, and biochemistry 317
YTTERBORN, KARL H., The persistency in experimental populations of second chromosome recessive lethals obtained after irradiation of spermatogonia and spermatozoa in *Drosophila melanogaster* 33
